Erij Tarhouni

IT Engineer
Specialized in Data science, Artificial intelligence

ABOUT

"It is a capital mistake to theorize before one has data."
Sherlock Holmes.
In other words, data is the fuel to all types of innovation and business growth - it's as simple as that. On that note, I'm a IT Engineer specialized in data science with an exceptional affinity for problem-solving and an outstanding ability to deliver distinguished results within this challenging competitive market.
